

User story #3

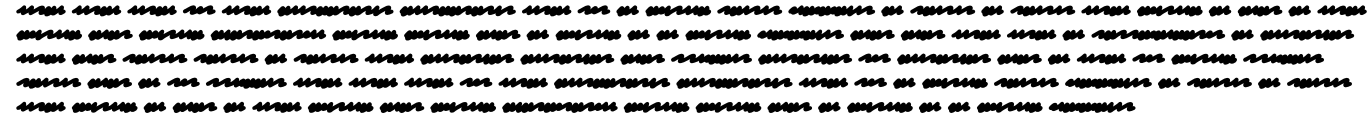

As a general user, I want to know who any CNA (or any other partner) reports to for each of their roles, so that I can learn about the organizational hierarchy, escalate an issue, or dispute an issue.

AC:

Add "Reporting Hierachy" column

Make "Reporting Hierachy" column searchable

List of Partners

Partner	Scope	Program Role	Organization Type	Country*	Reporting Hierarchy
Cybersecurity and Infrastructure Security Agency (CISA) Industrial Control Systems (ICS)	Industrial control systems and medical devices	Top-Level Root, CNA-LR	National and Industry CERTs	USA	<p>CVE Board</p> <p><i>Case 1: If the partner has a TL-Root role (or along with other roles), display CVE Board</i></p>
Google LLC	<p>Root Scope: Alphabet organizations</p> <p>CNA Scope: Google products that are not covered by Android and Chrome, as well as vulnerabilities in third-party software discovered by Google that are not in another CNA's scope</p>	Root, CNA	Vendors and Projects, Vulnerability Researchers	USA	<p>MITRE TL-Root</p> <p><i>Case 2: If the partner has a Root role which is the highest ranked role, display their Root and TL-Root</i></p>
Alias Robotics S.L.	All Alias Robotics products, as well as vulnerabilities in third-party robots and robot components (software and hardware) discovered by Alias Robotics that are not in another CNA's scope	CNA	Vendors and Projects, Vulnerability Researchers	Spain	<p>MITRE TL-Root INCIBE Root</p> <p><i>(Case 3: If the partner has only a CNA role and reports to both a Root & TL-Root, display both the Root & TL-Root). Else if the CNA only has a TL-Root or Root, then display that single organization that the CNA reports to.</i></p>
					<p><i>Case 4: If the partner only has a single CNA-LR program role, then display the Root and TL-Root</i></p>
					<p><i>Case 5: ADP (revisit when ready)</i></p>
