---	---	----------	---

## Accessibility

These checks highlight opportunities to [improve the accessibility of your web app](#). Only a subset of accessibility issues can be automatically detected so manual testing is also encouraged.

### Elements Describe Contents Well

These are opportunities to make your content easier to understand for a user of assistive technology, like a screen reader.

1	The page does not contain a heading, skip link, or landmark region		
---	--	---	---

	<b>Additional items to manually check</b>	11 audits	
---	---	-----------	---

	<b>Passed audits</b>	8 audits	
---	----------------------	----------	---

	<b>Not applicable</b>	26 audits	
---	-----------------------	-----------	---

## Best Practices

	<b>Passed audits</b>	15 audits	
---	----------------------	-----------	---

## SEO

These checks ensure that your page is optimized for search engine results ranking. There are additional factors Lighthouse does not check that may affect your search ranking. [Learn more](#).

### Content Best Practices

Format your HTML in a way that enables crawlers to better understand your app's content.

1 Document does not have a meta description

### Crawling and Indexing

To appear in search results, crawlers need access to your app.

2 robots.txt is not valid

1 error found

Additional items to manually check

2 audits

Passed audits

8 audits

Not applicable
